EDUCATION

SRM University, Sonepat, Haryana

Expected Aug 2027

Bachelor of Technology in Computer Science & Engineering (Data Science & AI)

TECHNICAL SKILLS

Technical: Python, Data Structures & Algorithms, DBMS, Machine Learning, Data Analysis
Development: Web Development (HTML5, CSS3, JS), Mobile App Development, Flask, REST APIs
Languages: English (C2 Proficient), Hindi (C2 Native), French (Intermediate)

EXPERIENCE & LEADERSHIP

AI Lytics (Coding Society)

Sep 2025 - Present

Co-ordinator

- Coordinated nationwide and campus technical events, workshops, and hackathons focused on AI/ML.
- Managed team operations, peer mentoring sessions, and hands-on coding competitions.

SPNF-HP, Shimla

Jul 2024 - Aug 2024

Engineering Intern

- Assisted engineering staff in software tasks and gained practical knowledge of production workflows.

PROJECTS

Amazon Clone Web App

[Flask, SQLite, HTML5, CSS3, JavaScript]

- Full-stack e-commerce web platform featuring user authentication, session security, product catalogs, and cart workflows.

Emotion-Based Music Player

[Python, OpenCV, Computer Vision, Deep Learning]

- Affective computing pipeline analyzing facial landmarks via webcam in real-time to curate tailored mood-enhancing playlists.

AI Chat Assistant for PDFs

[Python, NLP, Document Parsing, REST APIs]

- Natural language Q&A assistant indexing multi-page research documents to deliver context-grounded citations without hallucination.

Hand Gesture Piano System

[Python, OpenCV, MediaPipe, Real-Time Audio]

- Contactless virtual musical instrument tracking 21 skeletal hand coordinates in real time to synthesize harmonic piano notes.

Smart India Hackathon 2025 Hardware System

[Embedded Systems, Prototyping, IoT]

- Engineered national-finalist embedded system as part of Team Vajraa under strict 36-hour physical hackathon constraints.

HONORS & ACHIEVEMENTS

Finalist - Smart India Hackathon (SIH) 2025 (Hardware Edition)

2025

- Represented Team Vajraa at GIET University, Gunupur in India's premier nationwide hackathon.
- Recognized by judges for rapid physical prototyping, real-time debugging, and innovative problem solving.
